

the engine to fill the car. The smoker was packed to its utmost capacity, and all the passengers were crowded out. Not a single passenger in this car escaped with his life, and it is expected that at least forty of the dead were in the smoker.

Baggage-master Thomas J. Baum, of Hagerstown, who was on the wrecked train, proved himself a hero. With his head and body tightly buckled, he managed to crawl from the wreckage, and groping his way along in darkness, flagged the westbound passenger train No. 42. He had nothing with which to flag the train except matches, and these he made use of in his desperation, by taking off his coat and setting fire to it. He stopped the train just in time to prevent it from plunging into the wreck and adding further horror to an already indescribable disaster.

Saw Them Pile Up.

Baum collapsed when he saw he had succeeded in stopping the train, and when the engine stopped he was lying within a few feet of it. An operator at the "V.R." tower, on the Pittsburg and Lake Erie Railroad across the Washington River, was the first to send word of the wreck, and to send for relief. He was watching the Duquesne Limited as it was speeding along the hand of tracks across the river. He saw the crash, and high in the air he saw the wreckage of the train. The screams of the injured and dying were plainly heard, and in another second he was sending word to the railroad officials at Dawson and Connelleville.

For more than five hundred feet both the east and west bound track are torn up. The engine was entirely demolished and the big 7,000 gallon tender was thrown one hundred feet ahead of the wreck. The baggage car was thrown into the river, but was slightly damaged. All the cars were dented, and all the tracks except those of the diner were torn under the coaches.

As soon as the wreck was reported at Connelleville, all the available physicians were summoned, including Baltimore and Ohio Railroad physicians, and a special train was made up and taken in charge by General Superintendent S. C. Sims and Superintendent J. F. Irwin, of the Pittsburg Division.

The relief train was run at full speed, and the scene of the wreck was reached about 9 o'clock. The injured were looked after immediately and every one was made as comfortable as possible. They were loaded on to the relief train and taken to the Cottage State Hospital here. The dead were placed in a long row on the embankment opposite the wreckage, and in a single line thirty-eight forms lay cold and stiff on the frozen ground. Another row on the opposite side of the wreckage contained a few more. The bodies of the dead were piled up, and the bodies of many who had been able to crawl from the wreckage, but died before aid reached them.

Under his engine lay Engineer William Thornley, dismembered and nearly beyond recognition. It was impossible at the time to extricate his body, and it will be several hours before the wrecking crew will be able to remove the engine which pinions his remains under the huge mass of steel.

Hardly had the bodies of the dead been removed from the coaches when thieves began robbing the dead of jewelry and money. Special officers were dispatched, and with the aid of the Baltimore and Ohio police force and Connelleville officers, the work of the ghouls was stopped. Several persons are under suspicion, and arrests will follow to-morrow.

HEAD-ON COLLISION.

Engineer Killed and Eight or More Badly Injured.

(By Associated Press.)

BIRMINGHAM, Ala., Dec. 23.—As the result of a head-on collision between two passenger trains, one from Birmingham, this afternoon, between the second section of Louisville and Nashville passenger train No. 3 and the Decatur accommodation, Engineer Wright, of the accommodation, is reported dead, and ten persons, more or less seriously injured. The list of injured included eight of the accommodation's passengers, Abe Allen, the color ad fireman, and the express messenger of the accommodation. The injured passengers cannot be removed until the relief train, which was sent out from Birmingham, reaches this city.

It is understood that the accident was caused by the second section of No. 3 disregarding its orders, which provided that No. 3 should pass the Decatur accommodation at Morris switch, near New Castle.

No. 3, which left Louisville at 3 o'clock this morning, was made up into two sections on account of the heavy holiday travel, and the ill-fated section consisted of the train was crowded with passengers. The relief train was expected to arrive from the scene of the wreck at 1 o'clock.

THE REGISTRAR IS INELIGIBLE

(Continued from First Page.)

which, under the new Constitution, is one of the most important in the State of Virginia.

The intent of the law is to insure purity in this office, as much as anything, the contestants argued. In other words, they held a man should not be allowed to act as registrar, and while presumably exercising the discretion vested in him by that office, to say who is and who is not entitled to vote, register those who will put him in office, and debate those who might possibly prove to be his enemies at the polls. This possibility is a principle broad enough, if allowed to go unchecked, to defeat representative government, the defense argued, and from this standpoint it upheld the right of the Legislature to pass the statute it has passed.

Particularly is the principle involved in the present registration bill, which, Mr. Crocker argued, since the roll made up by the registrars appointed by the Constitutional Convention is a permanent one, and the discretion of the registrar is not limited to the registration of voters, but extends to the registration of the voters themselves, the safeguard given the voter.

The court upheld the contention of the contestees that the law is constitutional, and declared Mr. Christian ineligible to office.

Cook—Peragoy.

(Special to The Times-Dispatch.)

COOKING. The death of Mr. Frank Cook and Miss Jennie Peragoy, both of this county, were united in marriage at 6 o'clock last night. Rev. J. R. Thomas, pastor of the church, performed the ceremony.

QUEEN VICTORIA'S HAIR.

Its Great Profusion Was Always a Cause of Wonder.

Even at the age of eighty years, Queen Victoria's hair was a marvel of luxuriance. The court physician, following Professor Unna's discovery, undoubtedly, treated Her Majesty's scalp with a germ destroying preparation, that was made up of the following ingredients: 1. A solution of salicylic acid, 2. A solution of boracic acid, 3. A solution of carbolic acid, 4. A solution of formalin, 5. A solution of creosote, 6. A solution of eucalypti, 7. A solution of geraniol, 8. A solution of linalool, 9. A solution of menthol, 10. A solution of rosemary, 11. A solution of sage, 12. A solution of thyme, 13. A solution of lavender, 14. A solution of chamomile, 15. A solution of calendula, 16. A solution of marigold, 17. A solution of pansy, 18. A solution of carnation, 19. A solution of geranium, 20. A solution of hyacinth, 21. A solution of iris, 22. A solution of jessamine, 23. A solution of lilac, 24. A solution of peony, 25. A solution of poppy, 26. A solution of ranunculus, 27. A solution of rhododendron, 28. A solution of rose, 29. A solution of staphylo, 30. A solution of verbena, 31. A solution of ylang-ylang, 32. A solution of zinnia, 33. A solution of acacia, 34. A solution of almond, 35. A solution of apricot, 36. A solution of cherry, 37. A solution of plum, 38. A solution of peach, 39. A solution of apple, 40. A solution of pear, 41. A solution of quince, 42. A solution of raspberry, 43. A solution of strawberry, 44. A solution of blackberry, 45. A solution of blueberry, 46. A solution of currant, 47. A solution of gooseberry, 48. A solution of huckleberry, 49. A solution of logberry, 50. A solution of mulberry, 51. A solution of serviceberry, 52. A solution of sumac, 53. A solution of tamarind, 54. A solution of walnut, 55. A solution of hickory, 56. A solution of pecan, 57. A solution of chestnut, 58. A solution of hazelnut, 59. A solution of almond, 60. A solution of apricot, 61. A solution of cherry, 62. A solution of plum, 63. A solution of peach, 64. A solution of apple, 65. A solution of pear, 66. A solution of quince, 67. A solution of raspberry, 68. A solution of strawberry, 69. A solution of blackberry, 70. A solution of blueberry, 71. A solution of currant, 72. A solution of gooseberry, 73. A solution of huckleberry, 74. A solution of logberry, 75. A solution of mulberry, 76. A solution of serviceberry, 77. A solution of sumac, 78. A solution of tamarind, 79. A solution of walnut, 80. A solution of hickory, 81. A solution of pecan, 82. A solution of chestnut, 83. A solution of hazelnut, 84. A solution of almond, 85. A solution of apricot, 86. A solution of cherry, 87. A solution of plum, 88. A solution of peach, 89. A solution of apple, 90. A solution of pear, 91. A solution of quince, 92. A solution of raspberry, 93. A solution of strawberry, 94. A solution of blackberry, 95. A solution of blueberry, 96.
